

## 1# ICE/IEEE ITMC Conference 2018 in Stuttgart

Dear colleagues and friends,

The **24th ICE/IEEE ITMC International Technology Management Conference** will take place from **June 17<sup>th</sup> to 20<sup>th</sup> 2018**, in **Stuttgart (Germany)**. The event is organized by Baden-Württemberg Connected (bwcon), the leading technology Network in the South of Germany, and the IST innovation institute from the Lake Konstanz University. ICE Conference is one of the premier conferences associated to the [IEEE Technology and Engineering Management Society](#) (IEEE TEMS). The 24th ICE/IEEE ITMC is the place where research, science and industry innovators is called for original ideas, papers, debates, initiatives and projects. For the ICE 2018 we would like to invite our growing community of researchers, innovators, industrialists, engineers and practitioners to share their insights, practices, projects and case studies that address the conference theme: **Era of connectedness: The future of Technology, Engineering & Innovation in a digital society.**

We also invite you to distribute the [Call for Paper](#) in your Community, to build a truly global conference. We are looking forward to your participation!

Prof. Dr.-Ing. Guido Baltes & Marc König  
General Chairs

### Stuttgart 2018

Stuttgart is the capital of the German state of Baden-Württemberg. With more than 600,000 inhabitants, Stuttgart is the sixth largest city in Germany. Stuttgart is called 'the cradle of the automobile', which is why many world market leaders are located here. In addition, Stuttgart has much to offer but convince yourself! We will organize an outstanding program for the conference 2018 in Stuttgart. Get inspired by our [welcome video](#).

---

### Call for Paper

The 24<sup>th</sup> ICE/IEEE ITMC 2018 invites high-quality papers to be presented at this premier international event. Submissions should contribute to a substantial, original and previously unpublished research in the topics of the conference. This includes theoretical research papers that provide new concepts in the domain of **engineering, technology, and innovation & entrepreneurship**. Furthermore, it should contain empirical and qualitative case studies that develop new insights. Additionally, this paper should comprise a system design and development papers that go beyond the pure description of systems and give insight into theory and effectiveness of the

approach. The paper submission ends on the **13<sup>th</sup> February 2018**. Find the Call for Paper [here](#).
